

Marvel Universe has character sheets, but they're very fancy and you have to tear them out of your book, which I have chosen not to do. So I'm just writing here what I'd put onto the sheet.

#### Characteristics

- Intelligence 8
- Strength 1
- Agility 2
- Speed 3
- Durability 2

#### Actions

- Black Ops/Spying – Action Number +1
- Business Skills – Action Number
- Concentration – Action Number +3
- General Knowledge – Action Number +1
- (maybe) Invisibility – Action Number +2
- Leadership – Action Number
- Social Skills (economic radicalism, criminal) – Action Number
- Steal Superpower (Technology) – 30 white stones

#### *(very much maybe) Magic*

- *Mastery of Magic – Action Number +2*
  - *Sorcery – Action Number +2*

#### Modifiers

- Luck (personal) – Modifier +6
- (maybe) Healing Factor – Durability +2
- Prescience – 6 white stones
- Reflexive Dodge – Modifier +3

Forgive me for not working it all out in terms of stones and points; it'd take about an hour that I don't have. It's easier & faster for a starting original hero though.
